The new hub will service both MM Wholesale Club members and the retail branches of the MerryMart Group.

"The MM team is excited to fulfill the wholesale needs of the market from individual members who, from time to time, suddenly need several cases of grocery items for personal consumption or even for special events, and to the businesses who would want to further increase their efficiency and avail of the savings of purchasing wholesale by the case," said Edgar Injap Sia II, Chairman of MerryMart.

"The addition of this new 11,000 sq.m. modern MM Logistics Distribution Center will be an important step in supporting and increasing the expansion velocity of MerryMart's various retail formats," added Mr. Sia.

"We expect the MM Wholesale Club to significantly increase the volume and scale of the MM Group and further increase its efficiencies and improve margins. This will immediately expand the current market of MerryMart and address the needs of a currently underserved wholesale market with limited options in the past," said Hannah Yulo-Luccini, CFO of MerryMart.
